PROFILE

I am a final-year student of Software and Information Technology at the Faculty of Technical Sciences in Novi Sad. I am passionate about exploring new technologies and software development, as well as continuous learning and professional growth. My goal is to contribute to innovative projects and work on solutions with real-world applications. My experience in various fields has helped me develop adaptability, analytical thinking, and problem-solving skills, which I consider essential for my further professional development. I am eager to apply my knowledge and skills in a challenging and dynamic work environment.

EDUCATION

- **FTN Novi Sad** — 2022 -
  Professional software engineer
- **ETS Mihajlo Pupin Novi Sad** — 2014-2018
